

## In Increasing the Effectiveness of Youth Education- Military Patriotic Education

A. R. Mirzaev

Tashkent State Law University Specialized Branch Teacher

**Abstract:** In this article, measures taken to improve the effectiveness of youth education on military patriotic education and their results will be considered.

**Key words:** youth, efficiency of Education, patriotism, mafaatism, self-sacrifice.

The fact that the upbringing of young people in the spirit of military patriotism leads to an open and secret struggle of cadets to achieve a different political, cultural and spiritual monopoly in the current turbulent period, is becoming very relevant in the Pallas that are trying with the forces that are there to achieve their national interests by employing various political technologies. Such a pseudonym and conspiracies in time the issue of military patriotism of young people, the issue of giving a worthy blow against the existing monarchs, the upbringing in the spirit of self-sacrifice is a political profession.

The upbringing of young people in the spirit of patriotism has reached the political level of the state today.

This was reflected in the speech of the president of the Republic of Uzbekistan Shavkat Mirziyoyev in the expanded Assembly of the Security Council of the Republic of Uzbekistan in Yanvar of 2018, which called "Our Armed Forces-a strong guarantee of stability and progress of our country". In this speech, I would like to draw your attention to the fact that the head of our state, the Supreme Commander-in-chief of the Land Forces "spoke about the spiritual endurance of military servicemen, which is conspicuous in the event of armed clashes in different regions of the world at a later time. It is known that the main part of the losses between personal content during combat actions is associated with strong psychological effects and strokes. Treating such mental injuries, even in a calm state of life, is a very difficult task"<sup>1</sup> that emphasizes.

Our country is taking steps towards a great future in terms of independence and sustainable development. Our people love Labor, love peace, justice, President Sh. in restoration of modern, real state and civil society. Under the leadership of Mirziyoyev conducts state policy on youth. Young people are being assessed as the foundation of our future, the hilqat of our independence, the strength that sustains our path of development starting from 1991, protecting it from various dangers, great work is being done on social protection and support of young people, young servicemen.

In this concept, the issue of educating young people in the spirit of military patriotism requires scientific research, the creation of new innovative technologies for education and training. Foreign experience for this purpose is also available. Historical traditions of our statehood, the construction of modern armed forces, summarizing the experience of training The Defenders of Vatan, the implementation of scientific analysis, the doctrine of Defense Of The Republic of Uzbekistan in the education of young people in the spirit of military patriotism, the strategy of actions to further development of Uzbekistan, President Sh. Mirziyoyev's appeal to the Senate of the Oliy Majlis of December 29, 2020 and other tasks set in normative and political documents will become an actual theoretical and practical problem.

The issue of the formation of military patriotism is a complex, multifaceted issue, which is interpreted by the sciences of pedagogy, psychology, philology, sociology and politology. This topic is part of the educational policy of the ministries of secondary and Special Education, Higher Education. The content of the national program of training of Personnel adopted in 1997 is in tune. A number of scientific studies have been carried out on this topic, The Academy of the Armed Forces of the Republic of Uzbekistan, the Academy of the Ministry of internal affairs of the Republic of Uzbekistan are part of the educational process on the issue of training young cadres in the spirit of political, military and patriotism.

<sup>1</sup> Shavkat Mirziyoyev is an independent guarantor of the stability and development of our country. Speech of the president of the Republic of Uzbekistan Shavkat Mirziyoyev at the meeting in an expanded format.// "People's questions", T 2018 №6 (6964) 1-b.

A number of dissertation studies have also been conducted on this topic, which are mainly related to the fields of philosophy, pedagogy (R.Samarov, Sh.Akramova, K.Usmonov).

The issue of military patriotism and its formation in youth is relatively comprehensive in the Russian Federation.

In Russia, cadet young military schools, in addition to Cossack, there is a working structure called "Yunarmiya", where adolescents receive training in the field of military ranks, combat military terms, historical military requirements. Military patriotism operates within the framework of social organizations, such as associations of young volunteers in search of the graves of fighters killed in the Second World War. All this adds to the work of the school of young timurists, which is widely gaining momentum in Uzbekistan, to educate young people in the spirit of military patriotism.

In his scientific work he considered the ideological-patriotic aspects of the personal quality of the serviceman Sh. According to Shokirov, "modern scientific research in the field of personal characteristics shows that the basis of a systematic approach to an individual in different plans requires the consideration of individual qualities. From the point of view of a systematic approach, shaxsiyat characteristics are a component of the psyche and affect the psychological organization of the individual as a whole"<sup>2</sup>.

From well-known Russian educators R.R. Today, on the initiative of sheikhudinov, the education system in Russia is one of the priority tasks of educating young people in the spirit of civil patriotism.

In his scientific work, he considered the aspects of the formation of youth feelings of patriotism F. According to dosumkhodzhaev, "the feeling of patriotism in children does not arise by itself. This is the result of a long and purposeful educational impact on them, the formation of a healthy lifestyle from an early age, upbringing in the family, in the influence of education in schools, is emphasized"<sup>3</sup>.

The upbringing of young people in the spirit of patriotism was reflected in the decree of the president of the Republic of Uzbekistan "on improving the effectiveness of the state policy on youth and supporting the activities of the Youth Union of Uzbekistan" dated 5 June 2017.

In accordance with the decree, all military academic lyceums of the Republic were given the Name "School of Temurbeklar", taking into account that the high qualities of Amir Temur, such as loyalty to the motherland, veneration of the land, courage, self-sacrifice and Justice, serve as an example for the younger generation. Therefore, in the last years the National Army for the country's youth became a truly life School. Indeed, special attention was paid to the social protection of servicemen and their families, the provision of the army with modern equipment, weapons, the spiritual stimulation of State defenders, in the improvement of the system of term military service for young people.

President of the Republic of Uzbekistan Shavkat Mirziyoyev took his initiative in the creation of a new structure, the YA'ny National Guard, during the implementation of the great work devoted to the maintenance of public order on the basis of the concept of "safe city-safe country". In 1992, by the relevant decision of the Cabinet of Ministers of the Republic of Uzbekistan, the National Guard of the Republic of Uzbekistan was established on the basis of the military unit of the Ministry of internal affairs. Now in the National Guard there are several military units, Military Technical Institute, Temurbeklar school in Tashkent, Republican specialized academic Lyceum of music and arts.

Due to this situation and circumstances, the methodological basis for educating young people in the spirit of military patriotism is being formed.
